

## WTF 5k Trail Run – October 5, 2014

Course by - Steve. Prizes by – Phil. Perfect day for a 5k by - Mother Nature.

It was a chilly 40 degrees at the start, but not a single person was cold by the end of the first climb. Darren and Kevin blasted through the course and, in spite of leaving a little blood on the trail, they both bested the previous course record by a minute! It was neck and neck, but Darren out kicked Kevin in the end.

On the women's side, Jeanette ran a very strong race setting a new course record and was followed closely by Christine.

Great performances by all on what turned out to be an absolutely perfect day to race.
