

Patterson Mill Hill 5k 3/29/15

Sunny 23 degrees

How cold was it? - As I was setting up the table I spilled some water and as I rushed to wipe it up, it turned to a slushy film.... I could just imagine the same thing happening to the 47 sweaty runners who came out to garner their Snowflake points....

But the sun was shining and there was OJ and bagels and Frisbee's, and all you had to do was run down a hill and then back up it... But it was a big hill.

Dave Stevenson and Christine Trzcinski made it look easy as they cruised to their respective first place male and female spots.

There were a lot of good performances today, proving that folks have taken their Winter training seriously. And as always, it was inspiring to watch them.

Many thanks to Lonnie McNew and Phil Anderson for their assistance. And to John Wrobel for the Frisbee's. And to Tommy T. for the gift of an Irish Breakfast...
